- Unicode Conversion & OS/DB Migration
- Landscape Consolidation & Optimization
- Database Reorganization & Archiving
- Security Audit & Review
- Operations Continuous Improvements

Our delivery profile:
Think, Build and Run

BGP has delivery capabilities, staff expertise and a reputation for delivering on time, on budget, on specification and on value.

Our proven implementation and delivery methodologies can be tailored based upon the scope and complexity of the solution.

We make it real with world class
IT SAP Platforms

LOWER TOTAL IT COST AND SUSTAINABLE GROWTH

DATA SPREAD ACROSS TOO MANY SYSTEMS

CONSUMERIZATION OF IT

DATA NOT TIMELY ENOUGH

INSTANT ACCESS EVERYWHERE

MULTIPLE VERSION OF THE TRUTH

IMPROVE IT USER PRODUCTIVITY

COMPLEX SYSTEM LANDSCAPES MANAGEMENT

INEFFICIENT AND EXPENSIVE INFRASTRUCTURE

CIO has the priorities to:

- consolidate and optimize the stable applications core, the most running on premise;
- transform and innovate without disruptions enabling Business outcomes;
- reduce time to value;
- reduce TCO: "do much with less".

Market Issue and
Major Business Challenges
for the CIO

**WHAT CAN A CIO DO TO HELP
THE CEO MANAGE THE COMPANY'S
MAJOR BUSINESS CHALLENGES?**

BGP Solutions
help CIO become
a strategic advisor of the CEO

ADDRESS ISSUES WITH IT SERVICE DELIVERY

- Poor service ability & agility
- Custom and not standard services offering
- Heterogeneous infrastructure
- Over-provision infrastructure capacity
- Infrastructure underutilized during off-peak times

IT Ability
Agility and
Optimization

ADDRESS ISSUES WITH BIG DATA ANALYSIS FOR STRATEGIC DECISIONS

- Multiple and growing sources of internal and external data
- Poor data quality from outdated information and missed details
- High processing time and high data latency
- Complex, inefficient and expensive infrastructure

Big Data
analysis
in RealTime

ADDRESS ISSUES WITH DATA ACCESS ANYWHERE, ANYTIME

- Support multiple types of mobile devices
- Support multiple apps connecting to multiple data sources
- Manage a large and increasing fleet of mobile devices
- Handling security breach in the mobile data

Data access
anywhere,
anytime

ADDRESS ISSUES WITH STRUCTURED & UNSTRUCTURED DATA MANAGEMENT

- Growing volumes of heterogeneous and fragmented contents
- Inefficient paper based processes
- Lost productivity searching for contents
- High legal risk because content is not managed throughout its lifecycle

Structured &
Unstructured
Data
Management

CIO responsibility is shifting from the traditional EDP manager to that of change agent and strategic advisor to the CEO, who bears the responsibility for ensuring the integrity of the company's overall financial health and performance, preserving Shareholder's value and developing trust with Stakeholders.

SIMPLIFY IT, DRIVE INNOVATION

BENEFITS AT A GLANCE

- Platforms foundation of all core SAP Solutions
- Single open platform through the integration of SAP and no SAP components
- Support IT standardization and consolidation
- Drastically reduce administrations overhead
